

Date: February 4, 2009

Time: 3:00-4:30 pm EST

Attention: All Users of the CDR Case Reporting System

A Web cast Designed Especially for You

Making It Easy

While Getting the Most From the Child Death Review Reporting System

DIRECTIONS:

Participation in this web cast takes place exclusively through the Internet.

You need to pre-register for the event to make sure your computer works for the web cast. Before the web cast, register at:

<http://www.mchcom.com>

On February 4th, simply go to:

<http://www.mchcom.com>

If you experience any technical difficulties while registering, please submit a question to <http://www.mchcom.com/help/>

Please have a copy of the form available during the webinar.

Please join us for the web cast designed especially for YOU- a registered user of the web-based Child Death Review Case Reporting System. This web cast is an advanced training that will:

- Offer hints on obtaining information and using the form efficiently during your review meetings.
- Give you suggestions on entering data in report sections that confound many users.
- Help you create and use the standardized reports for prevention.

We hope that the web cast will lead to improved data quality and thus to improvements in local, state and national reports on our child deaths, so that your hard work will translate into prevention efforts in child health and safety!
